

GASKETS & SEALS

A gasket is a mechanical seal that fills the space between two mating surfaces, generally to prevent leakage from or into the joined objects while under compression.

GRADE	Carbon content min (%)	Oxidation resistance	Bulk Density (g/100cc)	Particle size distribution
A-0-3	95.0		0.33	+200# : 5% max.
A-0-6	96-97		0.20 – 0.22	300 BSS Mesh: 100%
A-0-7	97-98	94.70	0.24	-200# : 100%
C-1-0	96-97		0.62	52 BSS Mesh : 100%

And as per customer's specific requirements
